Increasing Operational Efficiencies

The Temenos Multifonds Every Fund Survey 2018 - Part 2

In our latest Every Fund Survey, we asked asset managers, custodians, third party administrators and professional service providers to give their view on operational efficiency - how fund managers and asset administrators can unlock value from operational systems, open up new opportunities, and reduce costs.

Here's what they said...

Increasing operational efficiencies is a key priority for asset management...

Industry focus of innovation over the next 12 months...

90%

of respondents think operational efficiency will become increasingly important

#1

Operational efficiency

#3

Digital channels

91%

of respondents think increasing operational efficiency plays an important role in increasing profitability

#2

Product development

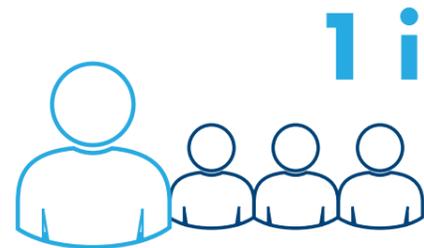

#4

Risk management

But technological innovation in operational support is not keeping pace...

94%

of respondents said technological innovation in operational support needs to accelerate

respondents felt fund administrators and transfer agencies were not fully keeping pace

92%

of respondents said 3rd party technology providers have an important role to play in accelerating technical innovation

The top value-add areas that asset administrators need to focus on...

#1

Supporting new asset classes (e.g. ETFs)

#3

Opening up new markets and jurisdictions

#5

Shortening the time period to produce NAVs

#2

Unlocking insights through data analytics

#4

Increase the speed to adapt to regulatory change

#6

Increasing client oversight and control

TEMENOS
THE BANKING SOFTWARE COMPANY

About Temenos

Temenos AG (SIX: TEMN), headquartered in Geneva, is the world's leader in banking software, partnering with banks and other financial institutions to transform their businesses and stay ahead of a changing marketplace. Over 3,000 firms across the globe, including 41 of the top 50 banks, rely on Temenos to process the daily transactions of more than 500 million banking customers. Temenos customers are proven to be more profitable than their peers: over a seven-year period, they enjoyed on average a 31% higher return on assets, a 36% higher return on equity and an 8.6 percentage point lower cost/income ratio than banks running legacy applications.

The Every Fund Survey

The survey was carried out between May and August 2018 and received 100 responses from the global asset management industry, including third-party administrator/fund administrators (30%), asset managers (24%), and custodians (16%), with auditors, consultants, law firms, and others accounting for the remaining respondents (30%).

Respondents are spread globally with 71% based in EMEA, 15% in North America and 14% in Asia.
