

Enterprise Service on Temenos SaaS

temenos

Launch complete banking
experiences across segments
faster than ever before

With the Temenos Enterprise Service, banks gain access to the full Temenos banking suite with the speed of SaaS. Enhanced with new capabilities and pre-configured products, banks can deploy and configure an end-to-end banking experience across segments on a single platform. With the Temenos Enterprise Service, banks can rapidly consume critical banking technology as-a-service to easily reap the benefits of cloud.

Enterprise Service on Temenos SaaS

Enterprise Service: adopt leading banking capabilities out-of-the-box

- Access all of Temenos' leading breadth and depth of banking functionality for retail, business, corporate and payments.
- Use banking capabilities across banking segments, supported on a single service.
- Capabilities are pre-configured and pre-integrated to help banks to deploy, configure and launch banking offerings in weeks or months.
- Provides end-to-end, pre-defined customer and user journeys, example products and processes, and ability to deploy and configure across segments.
- Regionalized solutions to support regulatory requirements when launching products.
- Extensive product configurability and Extensibility Framework to meet evolving requirements without unnecessary customization in the product.
- Use platform's 700+ APIs to rapidly integrate into your technology landscape and connect with partners.
- Proven to be suitable for progressive modernization strategies, greenfield banking and side core strategies.

Temenos SaaS: enjoy the full benefits of the cloud, without the complexity

- Temenos SaaS operates, supports, manages, scales, provides ongoing updates & upgrades for the service, and provides risk, governance and security assurance.
- Temenos SaaS allows banks to consume core, digital and auxiliary banking capabilities as-a-service, proven with banks across all tier sizes, under 30+ regulators around the globe.
- Annual Update Service helps banks to stay ahead of the market, offering the latest banking capabilities, access to the latest tooling, and supported by the latest technology.
- 24x7x365 Network Operations Center for Cloud Operations, 24x7x365 Security Operations Center, 24x7x365 service desk and associated critical support center.
- Highest standards for certification and auditing include SOC2, ISO 2700X, EU Cloud Conduct and CSA.
- BCP aligned with ISO 22301, actions audited and reflected in the SOC2 report.
- Continuous governance development through dedicated Temenos Data Privacy, Temenos Security and Temenos Risk teams.
- Elastic scalability, benchmarked for proven performance up to 150,000 transactions per second.

The challenge

To stay competitive in banking, it's crucial for banks to access modern banking capabilities and tools to deliver services in weeks or months, focusing on ongoing client innovation rather than infrastructure management. Temenos Enterprise Service on Temenos SaaS offers exactly that.

With Temenos SaaS, banks can leverage the cloud's resilience, security, scalability, and performance, rapidly consuming new features and functions. Cloud-based tools enable banks to easily and frequently drive changes for their end-consumers on an ongoing basis.

Temenos SaaS handles the critical mechanics of running, supporting, updating, and securing the software, allowing banks to focus on creating valuable services for their clients. Our commitment is to reduce complexity when delivering critical banking processes, ensuring the service meets bank-grade risk, governance, and security standards.

Banks that run Temenos SaaS have:

65%

Quicker to modify a new product

38%

More products per customer

20%

Key capabilities for your bank

Pre-defined customer & user journeys

Use out-of-the-box and proven products journeys to quickly deliver banking solutions.

Leading banking capabilities

Instant access to the largest set of core and digital banking capabilities across segments.

Extensive product configurability

Meet evolving requirements without coding.

End-to-end

Solutions that deliver entire banking experience.

Proven SaaS

A fully managed as-a-service offering for digital, core and beyond, proven around the globe.

No legacy upgrades

Temenos SaaS offers the Annual Update Service, so banks never have to go through a legacy upgrade again.

Extend the service

Use the Temenos Extensibility Framework to rapidly and safely extend service at the perimeter and deliver ongoing change through DevOps practices.

Modernize and co-exist

The flexibility to progressively modernize existing core technology, use it as a side core next to existing core systems, or create greenfield initiatives.

Leverage the hyperscalers

The easiest way to access the resilience, scalability, performance and security of the cloud providers, as Temenos SaaS is supported by Azure and AWS.

You're in good company

Presidents Choice Financial

With the introduction of a savings feature to its PC Money™, Account holders already save on banking fees and earn points linked to PC Optimum™, a popular loyalty reward program with more than 16 million active members. PC Financial recently deployed Temenos core banking on SaaS in just 6 months to achieve fast time to market for its first interest-bearing offering.

EQ Bank

EQ Bank decided to deploy an updated version of Temenos core banking running on the Temenos SaaS. The move provided the performance, scalability, and agility needed by EQ Bank to manage ongoing customer volumes—and made the bank one of the first in Canada to use a core infrastructure fully-hosted in a public cloud environment.

Temenos SaaS

Our clients leverage Temenos SaaS offering to access resilient, secure, and continually updated banking capabilities as-a-service, allowing them to focus on their customers and deliver at speed. Temenos SaaS offers the largest set of end-to-end banking services that are proven by banks around the globe across retail, business, corporate and wealth, in over 30 regulated jurisdictions. Temenos SaaS is supported by Microsoft Azure and AWS.

Move fast and leave complexity behind. Whether you're launching something new or modernizing what you have, Enterprise Service on Temenos SaaS provides everything you need to move forward.
