The notes on page 8 to 13 form an integral part of these consolidated financial statements.
1 Basis of preparation

This condensed interim financial information for the six month ended 30 June 2010 has been prepared in accordance with IAS 34 (Interim financial reporting). The consolidated interim financial report should be read in conjunction with the annual financial statements for the year ended 31 December 2009 which have been prepared in accordance with IFRS's.

2 Accounting policies

Except as described below, the accounting policies are consistent with those used in the annual consolidated financial statements for the year ended 31 December 2009.

Income tax is recognised based on the best estimate of the weighted average annual income tax rate expected for the full financial year.

The Group is not subject to pronounced seasonal or cyclical fluctuations but, historically, the Group recognises a higher volume of licensing business in the second half of the financial year.

There were no material changes in respect of the Group's contingent liabilities, including litigation settlement, since the last annual balance sheet date.

During the period ended 30 June 2010, the Group disposed of the commodities trading software business of Viveo Group and the assets of Viveo Consulting BV, the consulting arm of Viveo Group. The net assets disposed of as well as the gain recognised in the income statement are not significant to the Group's financial statements.

Since the annual financial statements for the year ended 31 December 2009 the Group has not suffered from any significant financial risks and the Group still remains strongly vigilant to mitigate these risks.

Following the acquisition of VIVEO Group, the Groups has started to implement a plan to restructure the VIVEO Group business. The plan is still under negotiation with the local Union and Work council and it is expected to be finalized in the second half of the year 2010. The full impact of the restructuring plan on the Group's financial statements will be disclosed in the 2010 annual financial statements.

Standards, amendments and interpretations effective in 2010

- IFRS 3 (revised) ‘Business combinations’, and consequential amendments to IAS 27 ‘Consolidated and separate financial statements’, IAS 28 ‘Investments in associates’ and IAS 31 ‘Interests in joint ventures’. The revised standard continues to apply the acquisition method to business combinations with some significant changes. For example, all acquisition-related costs should be expensed; contingent consideration must be recognised at acquisition date at fair value with subsequent adjustments to be recognised in the income statement. The Group has adopted the revised standard to business combinations with effective date on or after 1 January 2010. The adoption of the consequential amendment to IAS 27 ‘Consolidated and separate financial statements’ has not impacted the Group financial statements as no transactions with non-controlling interests have occurred during the period.

Standards, amendments and interpretations effective in 2010 that are either not expected to have any significant impact or not relevant to the Group’s financial statements

- 2009 Annual improvements. The effective date vary standard by standard but most are effective 1 January 2010. These amendments have not resulted in a material impact on the Group's financial statements.
- IFRS 1 (Amendment) ‘First time adoption of IFRS’. This amendment is not relevant to the Group’s financial statements, as it is an existing IFRS preparer.
- IFRS 2 (Amendment), ‘Share-based payment’. The expansion of the guidance form the former IFRIC 11 has no impact on the Group’s financial statements as the Group’s policy for share-based transactions were already in conformity with this amendment.
- IFRIC 17, ‘Distributions of non-cash assets to owners’ effective for annual periods beginning on or after 1 July 2009. This is not currently applicable as the Group has not made any non-cash distributions.
- IFRIC 18, ‘Transfers of assets from customers’ effective for transfers of assets received on or after 1 July 2009. This is not applicable as the Group has not received any assets from customers.
3 Share capital

As at 30 June 2010, the issued shares of TEMENOS Group AG comprised 63,382,989 common shares of a nominal value of CHF 5 each. All issued shares are fully paid.

<table>

<td>63,382,989</td>
<td>316,915</td>
<td>194,980</td>
</tr>
</tbody>
</table>

As at 30 June 2010 the number of treasury shares held by the Group amounted to 364,982. Treasury shares include shares held for resale and other shares allotted to members of the TEMENOS Employee Share Option Scheme or other option holders at the time that they exercise their options.

According to its Articles of Association, the Group has also the following conditional capital:

- conditional capital for employee participation (article 3 quater (1)) 5,383,450
- conditional capital for financials instruments (article 3 quater (2)) (of which 8,998,340 are reserved for the Convertible bond) 13,929,020

4 Earnings per share

The basic earnings per share are calculated by dividing the net income attributable to the equity holders of the Group by the weighted average number of issued and outstanding shares in that period, excluding Treasury shares.

The diluted earnings per share is the basic earnings per share adjusted for dilutive potential ordinary shares. The Group has two categories of dilutive potential ordinary shares: convertible debt and share options. Conversion of the convertible debt would be anti-dilutive and has therefore been excluded from the calculations as reported in the income statement.

- Opening balance as at 1 January 2010: 273,589
- Repayments of borrowings: (15,807)
- Foreign currency exchange differences: (19,866)
- Increase in borrowings - other: 1,387
- Closing net book amount 30 June 2010: 239,303

7 Business combinations

**2010 Acquisition**

On 10 May 2010 the Group acquired 100% of the share capital of FE-Mobile Limited, a UK based provider of software solutions for the mobile banking industry.

Since its foundation in 2002, FE-Mobile Limited has created a successful range of mobile banking applications. The FE-Mobile solution, marketed under the brand name of SecureLink, operates across three mobile channels providing universal applicability: a downloadable application, XHTML browser and SMS. The solution is secure, simple, versatile, scalable, easy to implement and easy to maintain. Given its flexibility, the product can easily replicate banks' existing functionality while giving them access to a robust platform for development and significant additional functionality, meaning that it can be marketed to all banks. The acquisition of FE-Mobile Limited will allow to broaden the suite of application that the Group can offer to its customers.

The goodwill arising from the acquisition is mainly attributable to the enhancement of the Group's software solutions and to the penetration into the mobile banking industry.

**Purchase consideration:**
- Cash paid: 582
- Contingent consideration: 5,233

**Total purchase consideration:** 5,815
**Fair value of net assets acquired:** 1,100

**Goodwill:** 4,715

The assets and liabilities arising from the transaction are as follows:
7 Business combinations (continued)

Net assets acquired: 

<table>
<thead>
<tr>
<th>Net assets acquired</th>
<th>Fair value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Intangible acquired</td>
<td>1,314</td>
</tr>
<tr>

<td>65</td>
</tr>
<tr>
<td>Trade and other payables</td>
<td>(1)</td>
</tr>
<tr>
<td>Deferred tax liability</td>
<td>(279)</td>
</tr>
</tbody>
</table>

Net assets acquired: 1,100

Goodwill arising on acquisition: 4,715

Total consideration: 5,815

The initial accounting has been provisionally completed at 30 June 2010. The Group is continuing to evaluate the fair value of certain intangible assets and contingent consideration.

None of the goodwill is expected to be deductible for tax purposes.

Acquisition related costs have been recognised in the income statement in the "General and administrative" line and are amounting to US$ 72 thousand.

The fair value of the trade and other receivables approximates its carrying value and it is expected to be fully recoverable.

The revenue and profit or loss contributed by the acquiree in the period between the date of acquisition and the balance sheet date is not significant.

If the acquisition had occurred on 1 January 2010, the estimated contribution by the acquiree to the Group's revenues would have been US$ 150 thousand and US$ 45 thousand to the Group's profit or loss. These amounts have been calculated using the Group's policies and by adjusting the results to reflect the additional depreciation and amortisation that would have been charged assuming the fair value adjustments to property, plant and equipment and intangible assets had applied from 1 January 2010, with the consequential tax effects.

The contingent consideration consists of:

-US$ 737 thousand on the final acceptance by the Group of the acquired product by 31 May 2011;
-US$ 737 thousand on the successful "Go-live" of certain number of units sold;
-US$ 3,759 thousand on certain number of units sold during a period ending on the third anniversary of the acquisition date.

The Group has not entirely completed the fair value assessment of the contingent consideration and has consequently decided to recognise the present value of the full potential amount. The final completion of the fair value is expected to occur during the second half of the year but given the robustness of the product; the size and the high potential of opportunities of the mobile bank market, the Group believes that the final fair value will not be materially different from the amount reported as at 30 June 2010.

2009 Acquisition

VIVEO GROUP

The below table discloses the financial effects and the movement in the Goodwill for the period ending 30 June 2010 as a result of the partial completion of the initial accounting during the measurement period that will end on 24 December 2010.

9 Segment information

The chief operating decision maker has been identified as the Group's Chief Executive Officer. He regularly reviews the Group's operating segments in order to assess performance and allocate resources. Assessment of the performance of the operating segments is based on the operating profit/(loss).

Segment result reflects operating expenses directly or reasonably attributable to the reporting segments. Unallocated costs mainly comprise of non-personnel related expenses such as restructuring costs, share-based payment expenses, depreciation and amortisation and offices related costs. Segment operating result is measured on the basis of the same accounting policies as the Group's financial statements.

Since the last annual financial statements, the Group has conducted a re-organisation in its internal reporting that has resulted in reconsideration of the business activities from a regional to a product perspective. Therefore, two reportable segments have been identified: "Product and Services". The product segment is primarily engaged in marketing and licensing the Group's software solutions and the services segment comprises of the various other activities such as implementation, providing training.

Regional information are still presented to the CODM but it is not primarily used to review performance and to make decisions to allocate resources. The comparative has been represented to reflect the change in the reportable segments.

The primary information provided to the Group's Chief Executive Officer for the reportable segments is as follows:

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>External revenues</td>
<td>131,477</td>
<td>111,484</td>
<td>62,642</td>
<td>51,655</td>
<td>194,119</td>
<td>163,139</td>

<tr>
<td>Operating profit</td>
<td>61,609</td>
<td>44,896</td>
<td>6,684</td>
<td>6,696</td>
<td>68,493</td>
<td>51,592</td>
</tr>
</tbody>
</table>

Intersegment transactions are treated as cost reductions rather than internal revenues. They are charged based on internal cost rates that excludes any profit margin.
