

## Apiax App

# Answer complex regulatory questions on the go

Discover more at [apiax.com](http://apiax.com)

Provide compliant financial advice anytime and anywhere and exceed your clients' expectations.

Apiax' award-winning solution provides client advisors with regulatory answers for complex questions in the context of cross-border banking and tax at a click of a button.

## Always stay compliant and confident

The Apiax App provides you with binary answers to complex regulatory questions. Fulfil any regulatory requirement in any market, including client and product suitability requirements — minimizing your risk exposure.

## Increase your clients' satisfaction

Digital rules for tax impact assessment allow you to offer superior investment advice by improving investment performance, taking after-tax performance into account.

## Regulatory answers on ISIN level

Our digital rules are mapped to major instrument data providers and integrate seamlessly into your product universe, providing regulatory answers on ISIN level for any asset class.

## Expand your reach

Advise your clients with ease in any complex cross-border situation. Access new markets at the click of a button. Reduce compliance training and meeting preparation time — focus on business development.

## Apply your risk strategy

Apply your organization's risk appetite to every level, from market segmentation and asset class to client type.

## Best-in-class regulatory content

Our digital regulatory rules are provided, verified and continuously kept up to date with the latest regulatory changes by our best-in-class content partners for more than 100 jurisdictions.

## A native experience for quick answers

The Apiax App is available for iOS and Android, providing a native experience and allowing an easy deployment path to your client advisors' smartphones.
