

Collections and Collateral Protection Insurance Made Easy

Integrated to the Collection and Recovery Modules

Simplify daily collection processes by connecting Collateral Protection Insurance (CPI) from InsurTrak, State National's online insurance tracking system of CPI management, to Temenos Infinity. With the CPI State National connector, you will: See a borrower's entire insurance history for the lifecycle of the loan; Make decisions faster and with more confidence; Save your staff time.

KEY FEATURES

Real-Time Loan Tracking

View insurance and claim submission status in real-time through a dedicated State National InsurTrak screen with the connector, providing immediate updates to your personal workspace. The connector also includes all loan details such as complete history of every transaction with State National and all current and past CPI placements.

Simple Claim Submission

Easily initiate, update and track CPI claims via the connector. With the ability to attach receipts and reports to a claim, the submission process is convenient and seamless!

CPI Workflow Steps

Take advantage of built-in workflow steps which allow users to file a claim, submit insurance information or stop tracking activities due to repossession. This functionality prevents the need to move outside of the platform for daily CPI tasks.

Daily Communication

CPI data from InsurTrak is delivered daily, providing financial institutions with the most up-to-date and necessary insurance and claim information. These details can be used to drive views, workflows and reports

Reduced Redundant Data Entry

Utilize the connector to pre-populate data fields on a claim submission and proof of insurance submission, reducing time spent on redundant data entry.

Quick and Easy Activation

Activating the CPI State National connector in the system takes only minutes once a relationship is established with State National.

MORE INFORMATION

System Requirements

Version 10.31 or higher must be running in order to utilize the CPI State National connector.

Provider Highlight

StateNational

State National specializes in portfolio protection solutions for both auto and mortgage, serving banks, credit unions, and specialty lenders of all sizes. As the only dedicated CPI provider that is also the underwriter, we offer cost-effective, tailored solutions with less paperwork, less time and effort required, and more transparency — all while delivering more in claim dollars than our competitors.
