

# WHAT ARE YOU READY FOR?

No one is arguing about whether the future of banking is digital. *But where do you start? What should you do next?* The idea of digital banking transformation can feel intimidating. **It shouldn't.**

**your growth**

Powered by **TEMENOS**

## We've used our experience of working with financial institutions around the world for the past 10 years to create an assessment process and workshop that answers **“What are you ready for?”**:

Are you ready to face up to market pressure?

Are you ready to take control of your digital roadmap?

Are you ready to deliver exceptional digital experiences to your customers or members?

Are you ready to accelerate along the Digital Banking Maturity Curve?

**The data-driven process is free.  
It takes two weeks and there are  
five easy steps:**

## **STEP 1**

### **Get the right people together**

Success depends on getting the right people involved at the beginning. People that usually attend the sessions include your CIO, CTO, marketing lead, retail banking and/or loan officer, your customer service lead—anyone critical in defining and delivering your customer experience.

#### **The team needs to commit to two things:**

1. Completing an assessment tool
2. and attending a two-hour hands-on meeting.

## **STEP 2**

### **Complete the Temenos Digital Banking Maturity Assessment**

We send you an assessment tool to fill out based on the technology, people, and processes you have in place today to support your Digital Banking experience. It takes about 20 minutes to complete. You can do it as a group, but in our experience it is even more interesting if everyone records their own personal perspective.

**“Customers today turn to an increasing number of touchpoints to discover, explore, and buy banking products and engage with banks. Banks must move beyond product-centric and channel-specific measures.”**

Forrester: Track Digital Banking Success with Customer-Centric Metrics

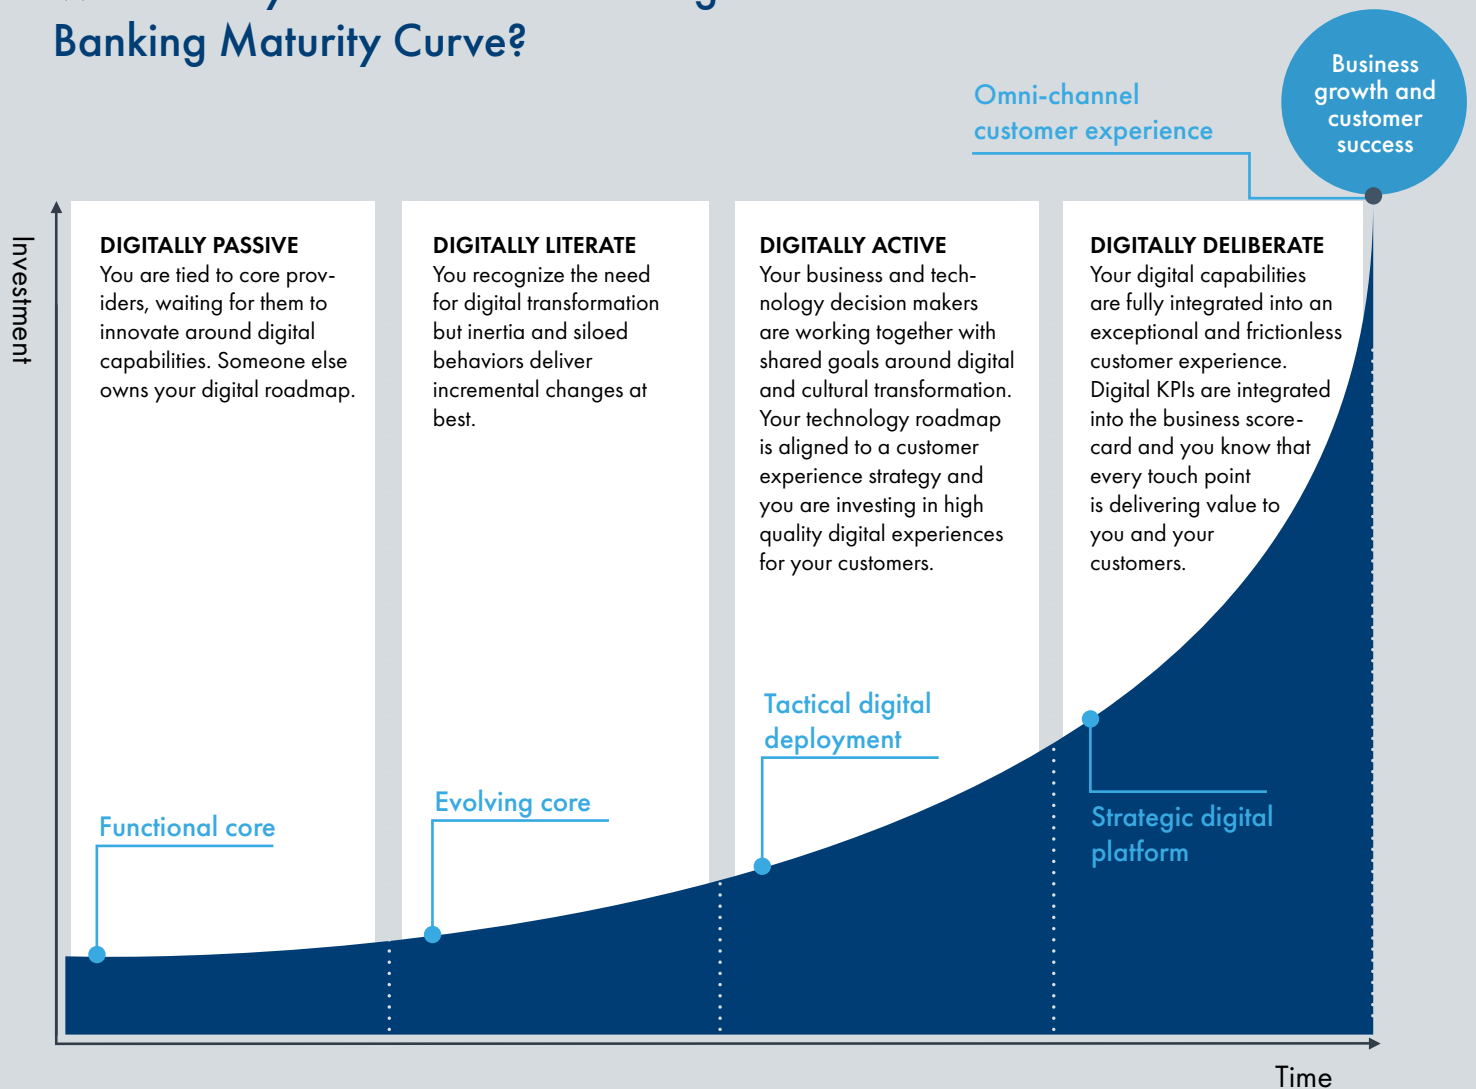

## STEP 3

Let us work out where you are on the Digital Banking Maturity Curve

Step 3 is on us. Our team of digital banking experts looks at your responses to the self-assessment tool and determines your current location on the Temenos Digital Banking Maturity Curve.

## Where are you on the Temenos Digital Banking Maturity Curve?

## STEP 4

### Workshop time

This is where the real work begins. Our team meets with yours and we work together to unpack where you are today and where you want to be in the future. You talk, we listen. Then we ask questions and share our experience of working with other institutions like yours. We talk about opportunities and challenges as well as short, medium, and long-term goals. We do all this in a structured two-hour session.

## STEP 5

### Your personalized report Banking Maturity Assessment

We take everything we learn through the process and create a personalized assessment of your situation now and your goals, and we offer recommendations on how you can reach them quickly. You have nothing to lose but uncertainty. Remember it's free. It's data driven. It's the next logical step.

**“Our cast members of The Walt Disney Company are increasingly expecting to do banking anywhere at any time. In the past, credit unions distinguished themselves by providing direct person-to-person interaction, and today our challenge is to bring that personal service to the digital realm. We rely on Temenos as our strategic partner to help us accelerate our digital transition so we can better meet the needs of our cast members today and in the future.”**

Temenos AG (SIX: TEMN) is the world's leader in banking software. Over 3,000 banks across the globe, including 41 of the top 50 banks, rely on Temenos to process both the daily transactions and client interactions of more than 500 million banking customers. Temenos offers cloud-native, cloud-agnostic and AI-driven front office, core banking, payments and fund administration software enabling banks to deliver frictionless, omnichannel customer experiences and gain operational excellence.

Temenos software is proven to enable its top-performing clients to achieve cost-income ratios of 26.8% half the industry average and returns on equity of 29%, three times the industry average. These clients also invest 51% of their IT budget on growth and innovation versus maintenance, which is double the industry average, proving the banks' IT investment is adding tangible value to their business.
