

Buy Now Pay Later

Growth and Evolution

BNPL purchases are set to grow

86% CAGR

through 2026

Banks have already lost

\$10bn

to BNPL providers...

...and this is projected to grow

Existing banks have all the right ingredients to turn the BNPL threat into an opportunity

Two Business Models

Buy Now Pay Later

Starts at point of purchase

Pay Later

Converts recent purchases into instalment payments

By entering the BNPL market, banks can:

- Improve customer experience
- Increase revenue
- Gain greater insight into customer financial behavior

50%

of BNPL consumers would prefer to have the service provided by their bank or credit card issuer

BNPL regulation is coming

Customers increasingly want to understand *why* they are recommended BNPL payment terms

Banks that support prudent lending practices with *explainable* recommendations will **win trust**

Leading global payments provider launched BNPL with Temenos and scaled to

22m

accounts in 9 months

50%

of customers used it again within 3 months

15%

uplift in merchant engagement
