

Let's plan now for 2024!

Transition from your legacy system to the best-in-class Multifonds solution

Legacy Systems

Fragmented legacy systems run in silos

Spreadsheets/additional systems to identify exceptions

Limited configurability requiring spreadsheets to supplement the core system(s)

Multiple systems, complex integration and reconciliation processes

Limited number of IBOR points, unable to meet client demands

Backups require system downtime periods

Single time-zone per system

Tedious manual checking and analysis

Long and risky implementations

Multifonds Accounting Platform

Single, global, SaaS solution

Exception-driven workflow

300+ user definable controls

Follow the Sun ABOR & IBOR

Multiple IBOR points per day

No system downtime

Time stamping & Timezone capability

Explainable AI (XAI) – easily identify false positives

Specialized Migration tool: reduce the duration and effort of migration projects by 50-75%
