## SaaS API blockchain connectivity

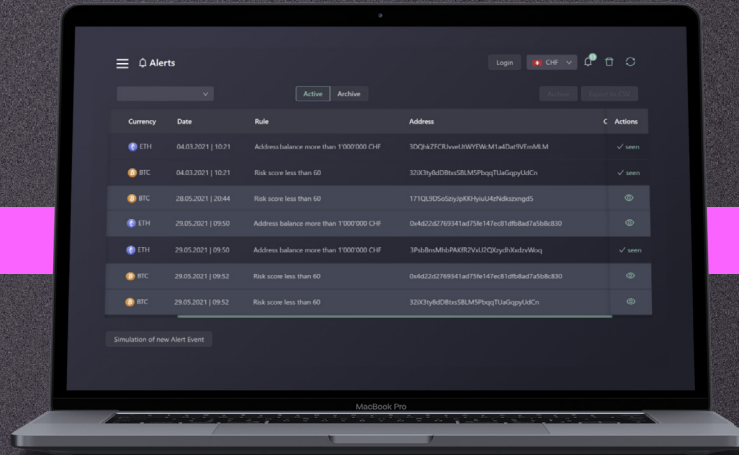

Transfer assets, monitor wallets, manage counterparty risk, all in real-time

✓ **1 unified API, 10+ blockchains, SLA 99%+**  
Expand your blockchain technology coverage instantly

✓ **Risk management and reporting automation**  
Perform analysis per counterparty, see risk exposure in real time and set-up alerts

✓ **Save time, save costs, scale faster, improve CX**  
Up to 80% saving vs DIY, no usage limits, improve data correctness and reliability

✓ **GDPR compliant, ISAE3402, Swiss-cloud**  
Cover all regulatory requirements

### SaaS model

- Simple subscription model
- Monthly subscription fee per blockchain protocol
- CAPEX and OPEX savings to end-users
- Private set-up possible

### 10+ protocols coverage

- Public and private blockchains
- ADA, BTC, BCH, BSV, LTC
- Diem (Libra)
- ETH incl. ERC20 tokens, CMTA20, ERC777, custom-contracts, etc...
- ETC, XRP, NEO, XTZ, XTZ FA1.2, XTZ FA2.0, XLM...

### Swiss-cloud, secure

- SWISS Data centers
- SWISS cloud providers (no US cloud act)
- Swiss privacy standards
- ISAE 3402 audited

### Proven

- In operation since 2018
- Crypto-banks, investment banks, private banks, technology companies
- All Swiss power users

### Reliability

- 2 data-centers
- Redundancy: multiple nodes per blockchains
- Distributed databases
- Best practice infrastructure monitoring system(s)
- ISAE 3402 audited

### APIs and simple access

- 1 unified API for 10+ blockchains
- No usage limit
- Activation in minutes
- UTXO blockchains
- Account-based blockchains
- Multiple transport protocols: REST/JSON, gRPC

### Risk management

- Counterparty risk monitoring
- Real-time risk exposure and alerts set-up
- Full compliance with regulatory requirements

### Low TCO

- Zero set-up fees
- Pricing per protocol
- Saves ca. 80% costs (vs. DIY)

## The Taurus platform

Unified platform - modular, enterprise-grade and multi-blockchain - to manage ANY digital asset: cryptocurrencies, tokenised assets, digital currencies. Available on-premise, SaaS, or hybrid deployment.
