GOBENCHMARK

HUMAN-AI-POWERED MENTOR FOR SMARTER BUSINESS OUTCOMES.

WHY GOBENCHMARK?

At **Performetriks**, we believe reliable applications should be the gold standard for every business. Yet many businesses lack an effective approach to performance and observability, putting their systems at risk and causing them to fall behind competitors. Knowing your gaps and how to close them is critical for every business.

That's when **Gobenchmark** comes into play: a Human-AI-powered mentor that guides your business in the right direction. It helps teams assess their capabilities by identifying gaps across performance engineering, observability, quality assurance, and more.

WHAT IS IT?

Gobenchmark is a Human-AI-powered platform that helps teams understand and improve their performance and observability practices. It uses an assessment to evaluate current practices and analyzes the results to create a remediation plan, guiding your organization to the next level. With **Gobenchmark**, track your adoption of industry standards and close identified gaps to improve in all areas.

HOW IT WORKS?

ASSESSMENT

Answer set of questions to receive your benchmarking score immediately.

RATING AND COMPARASION

See where your business ranks compared to the industry standards and your peers.

REMEDIATION

Get a tailored remediation plan to close gaps and raise your maturity level.

BENEFITS / VALUE

- ▶ Benchmark your maturity against industry standards.
- ▶ Get a clear remediation plan within hours, not weeks.
- ▶ Cut costs by preventing performance and reliability issues early.
- ▶ Instantly uncover hidden gaps that impact performance and reliability.
- ▶ Move faster with expert guidance at every step.
- ▶ Reduce risk by following industry best practices.
