How we address your goals and challenges?

Temenos Islamic runs on the best banking technology ensuring full Shariah compliance for all types of Islamic banking products. It has been proven globally with tier 1 Islamic banks.

Temenos Islamic Model Bank provides an accelerated implementation for your bank making sure you can go live in a short timeframe and start generating return on Investment. Temenos Islamic delivers a full digital experience for the bank of the future coupled with XAI.

What our solution covers?

Deliver an outstanding Shari'ah compliant experience to your customers using a combination of digital and human interaction, leveraging advanced graphical product building capabilities and modern technology to create offerings that are compliant and personalized while reducing your operational costs and risks.

COMPLIANT

Temenos Islamic Banking is fully compliant to Shari'ah requirements, processes and accounting entries. It is parameter-driven, enabling banks to adapt it to their own specific compliance requirements.

COMPREHENSIVE

Temenos Islamic Banking covers all areas of banking, from retail to SME to corporate, private wealth and inclusive banking with rich functionality across all verticals.

ENABLE INNOVATION

With its flexible product builder, Temenos Islamic Banking allows financial institutions to create a wide range of products while facilitating innovation and a fast time to market.

DIGITAL

Built on the best digital platform as selected by Ovum, enabling banks to face digital challenges and competition.

SCALABLE

Temenos Islamic Banking serves small financial intuitions and the largest banks in the industry using the same software. It benefits from significant investment in banking technology, ensuring it is up to date and future proof.

Functionality

Deliver an outstanding Shari'ah compliant experience to your customers using a combination of digital and human interaction, leveraging advanced graphical product building capabilities and modern technology to create offerings that are compliant and personalized while reducing your operational costs and risks.

Temenos Islamic Banking combining processing scale with flexibility

With advanced development tools, including pre-configured services and workflows, you can now accommodate rapid expansion in existing business areas and adapt quickly to evolving customer needs for new products and services. This gives you first-mover advantage over competitors and allows you to offer a superior level of service.

Islamic Banking has been designed with efficiency as a priority

Most routine processes can be automated, supporting straight through processing (STP), reducing the number of errors and the need for manual intervention, driving down operating costs. Temenos Islamic Banking also offers solutions to support a broad range of functions in diverse locations, transforming a legacy environment. Costs can again be cut and controlled by reducing the number of legacy applications that need to be supported. Whilst back-office staff and operations can be consolidated in a low-cost location to produce significant business savings.

Islamic Treasury

A module offering full treasury coverage including front, middle and back office functionality for Islamic money market contract and capital market products including Sukuk.

We are delighted to appoint Temenos as our strategic technology partner for our digital transformation. Temenos digital banking platform will enable us to transform faster, drive out complexity and lower our overall total cost of ownership. Temenos has a worldwide reputation for robust, innovative banking software and an extensive presence and commitment in the Saudi Arabia. With Temenos we will be able to introduce new and innovative products more quickly and help reduce operational costs, as well as offer a cutting-edge digital experiences to our customers.

Mr. Saif Al Dhaheri,
COO – Al Hilal Bank

Temenos Transact has had a positive impact on our business. It has enabled the bank to automate and streamline processes and improved the bank's overall operations' flow. We are delighted with the latest release of Temenos Transact, which will continue advancing the bank's productivity with its functional and technological enhancements. With the new Temenos Transact release, our plan is to further enhance the bank's investment management and profit management capabilities for Mudaraba and Wakala accounts. In addition, we plan to expand our Islamic derivatives products, and progress our Islamic mortgage financing.

Mr. Saif Al Dhaheri,
COO – Al Hilal Bank
