

Temenos Core for Business

Temenos Core for Business Banking provides cutting-edge functionality that enables banks to create innovative and personalized banking products targeting all Business Banking customers.

Offering world-class products

Temenos Core Banking for Business enables your institution to offer personalized, customer-relevant products, while allowing for lower operational costs and increased Return on Equity (ROE) with a functionally rich, flexible, and agile core processing engine.

Quickly adapt to market conditions and needs, even during adverse conditions with a rich product lifecycle management functionality which offers scalability, resilience and margin optimization whether the solution is deployed on SaaS, Cloud or on-premise.

Who we serve

Temenos for Business Banking enables banks or financial institutions to deliver value to their small, medium and large business customers across the entire lifecycle, from onboarding to servicing either as a SaaS-first or on-premise end-to-end solution.

The solution is a front-to-back integrated core banking system with individual deployable components that cover all the micro-segments of business banking. Financial products are easily configurable using the product building capabilities and individual components or pre-defined out-of-the box product solutions are available covering Current and Savings accounts, Fixed Term deposits, and a variety of Lending products to suit your business needs.
