## Access Vehicle Valuation Data with the JD Power Connector

Integrated to the Loan Origination Module

The JD Power connector allows users to retrieve vehicle market values from JD Power, an industry leader in vehicle valuation, products, services, and information, directly through Temenos LMS Origination.

## Key Features

### Obtain Real-Time Information

Vehicle value information from JD Power can be conveniently accessed in real-time using the JD Power Calculator right from Temenos LMS Origination.

### Include JD Power Values in Each Application

The JD Power Calculator can be built into the application process to ensure market values are included with each record. The information is then saved within Temenos LMS Origination and can later be referenced by loan processors

### Access Values at Any Time

The JD Power Calculator can be made available at a designated point in the application process or by selecting it from a menu on the main application tool bar.

### Easily Update Information

Vehicle information for each application can be modified and updated at any time on an as-needed basis.

## Benefits

### Save Time

Eliminate time spent on duplicate data entry and shifting between more than one program. All necessary JD Power calculation tools can be accessed directly within Temenos LMS Origination.

### Reduce Costly Errors

Avoid errors caused by manual vehicle value look-ups and reduce mistakes that can result from copying data from one program to another.

### Information at your Fingertips

Electronically obtain vehicle book values in real-time while speaking with a customer or processing an application.

## More Information

### System Requirements

Version 10.24 or higher must be installed in order to use the JD Power connector.
