

Modern Workforce Authentication for Credit Unions

One portfolio. Three authentication paths—designed for real-world banking environments.

Credit unions face different authentication challenges depending on their workforce, infrastructure, and regulatory environment. HID delivers a **unified workforce authentication portfolio** that addresses these realities—from phishing-resistant cloud access to on-prem control and regulated-scale assurance—without forcing a one-size-fits-all approach.

How Credit Unions Secure Workforce Access Today

Use Case: Shared Workstations and Cloud-First Environments

PROBLEM CREDIT UNIONS FACE:

- Rising phishing and credential theft
- Password fatigue and helpdesk burden
- Frontline and shared device access challenges

HID SOLUTION:

IDmelon

- SaaS-based FIDO2 passkey orchestration
- Badge, smart card, or mobile login
- Built for Entra ID-managed or hybrid environments
- Optimized for speed, simplicity, and cost control. SOC 2 Certified

Use Case: Shared Workstations and AD-Only Environments

PROBLEM CREDIT UNIONS FACE:

- Branch and back-office systems tied to Active Directory
- Shared PCs with weak authentication
- Regulatory or operational constraints that limit cloud use

HID SOLUTION:

DigitalPersona

- Deep Active Directory integration
- Biometric authentication for shared workstations
- On prem or air gapped deployment
- Granular policy control at the endpoint

Use Case: High Assurance Authentication at Scale

PROBLEM CREDIT UNIONS FACE:

- Growing digital workloads and user populations
- Fragmented authentication methods and devices
- Regulatory and audit pressure (ISO, SOC, financial regs)

HID SOLUTION:

Authentication Service

- Cloud-hosted, multi-protocol authentication
- Designed for millions of users and high throughput
- Certified compliance (ISO 27001, ISO 27018, SOC 2)
- Supports multi-tenant and managed service models
- No on-premises infrastructure required; HID operates and maintains the platform

Why It Matters for Credit Unions

- **Protect workforce access**
Reduce credential theft and phishing risk across banking systems and enterprise applications
- **Support real branch environments**
Enable secure access for shared workstations, branch teams, and back-office staff
Deploy the right solution for your environment: cloud-managed for modern branches, on-premises for AD-tied or restricted networks
- **Maintain control and compliance**
Support regulated environments with strong policy control, audit readiness, and deployment flexibility ((ISO 27001, ISO 27018, SOC 2)

Why Credit Unions choose HID

HID together with its partner network delivers tailored authentication solutions across North America—designing, deploying, and supporting secure environments with deep expertise in legacy integration, converged access, and financial services compliance
