

FROM DOCUMENTS TO DECISIONS, INSTANTLY

Online risk onboarding for Temenos-powered banks

Prestotech's APIs read, validate and score borrower documents in seconds, eliminating manual bottlenecks so you can onboard prospects, thin-file customers and non-primary bank customers instantly.

THE DOCUMENT LAYER

From upload to decision, in seconds

Multiple document types

Various document types processed simultaneously (IDs, payslips, bank statements, tax returns, balance sheets)

Advanced fraud detection

Automated fraud and manipulation checks across document data and metadata.

Rule-based validation

Configurable checks on completeness, recency and application logic.

Pre-integration into Temenos APIs

No rip-and-replace of your core and digital banking.

Alternative to Open Banking

Bank statements uploaded as PDFs for broader bank coverage.

Time back to underwriters

Manual review time cut by -80%.

Higher conversion

Fewer drop-outs at the top of the funnel.

A cash flow analytics and document automation platform, headquartered in Berlin. ISO 27001 & SOC 2 compliant. Now serving banks across the US, Europe and the UK.
