Governance and Advisory Services

Governance and Advisory Services provide structured oversight and expert guidance across your transformation journey.

By combining architectural expertise, delivery governance, and extensibility advisory, we help you make informed decisions, maintain control, and align implementation with best practices.

These services ensure your programs remain on track, scalable, and aligned with long-term strategic and operational objectives.

Current services include Temenos Active Participation Service (TAPS), Architecture Advisory Services and Extensibility Advisory Service.

Focused Advisory Engagement

Advisory services are delivered through clearly defined engagements, ensuring targeted inputs aligned to specific transformation needs and priorities.

Structured Decision Enablement

A consistent approach to decision-making ensures alignment across architecture, extensibility, and project governance considerations.

Practical Outcome Alignment

Recommendations are shaped to be actionable and aligned to real-world implementation and operational constraints.

Benefits

Maintain delivery control through structured governance, expert oversight, and proactive risk management.

Ensure architectural consistency with scalable, resilient designs aligned to proven best practices.

Enable sustainable customization by aligning extensions with long-term maintainability and upgrade readiness.
