Migration Services

Temenos Migration Services support data migration from legacy systems through structured service packages Data Migration Advisory & Data Migration Assist. With clearly defined scope, validation processes, and timelines, they ensure data quality, integrity, and compliance throughout transformation. These packaged services play a crucial role in migration projects steered by the client or a Temenos certified migration partner.

Combining advisory expertise with execution support, we help you manage complexity, ensure data integrity, and reduce risk across every stage of migration.

Our services enable a smooth transition while maintaining business continuity and preparing your platform for future growth.

Defined Migration Scope

Clearly structured migration blueprints outlining data scope, mapping logic, and dependencies. This ensures alignment across stakeholders and enables controlled execution by client or partners within well-understood boundaries.

Governed Migration Approach

Advisory-led governance framework guiding planning, decision-making, and risk management. It enables consistent oversight, defined checkpoints, and alignment across business and technology teams throughout the migration lifecycle.

Structured Data Validation

Comprehensive validation frameworks support reconciliation, data quality checks, and audit readiness. It allows teams to confidently verify completeness and accuracy of migrated data before go-live.

Benefits

Reduce migration risk through structured planning, data validation, and proven migration methodologies.

Ensure data integrity with controlled transformation, reconciliation, and validation processes.

Accelerate migration timelines through expert support and repeatable, proven delivery frameworks.

Together with our partners, we have delivered hundreds of banking implementations globally in recent years —serving banks of all sizes and segments.

With proven advisory and delivery expertise, we help banks accelerate transformation, reduce risk, and unlock full value from Temenos Core, Temenos Digital and auxiliary functionality.

With our services, we empower financial institutions to transform, innovate faster, operate smarter, and deliver exceptional customer experiences.
